Amount of folded crates on the euro pallet (1200x800) in full truck 320 pc for all types

Basic material cPP by Lyondell Basel

Service temperature range -20C to +60C

Washing temperature range max 60C

Additional facts:

- Improved design for easier and more effective washing, ventilation and drying
- Special design of outer walls surfaces for easier sticker and dirt removing

Operational notes:

Unfolding

1. Grip a handle of a long side with each hand and open them up.
2. Pull up short sides until they lock into place.
3. Press on the short side top corners inside-out until they firmly fixed with "click" sound.

Folding

1. Press on the top corners of short sides from the outside until the locks are unfixed.
2. Put the short sides on the crate bottom.
3. Fold long sides down onto the folded short sides.
